

MODEL 56A *Bench-Top Prefeed/De-Reeler*

The Model 56A is a powerful Bench Top on demand Prefeed/De-Reeler designed to provide your Electric Bench Top Wire Processing Machine with a constant and undisturbed supply of wire from either a Wire Spool or Barrel. This unit features a Powerful Belt Feed Material Transport, Infinitely Adjustable Speed Control, and a Pulley Accumulation System that virtually eliminates any material overrun. The Model 56A comes complete with its own De-Reeler Stand, making it an excellent compliment for Electric Bench Top Wire Processing Equipment. Every machine comes with a durable Powder Coat Finish and 1 Year Limited Warranty.

Please Note that the Model 56A is not designed to be used in conjunction with Wire Processors that Measure, Cut, Strip and Terminate in One Operation.
